

Staburo GmbH is a data science company, specialized in statistical consulting, programming and bioinformatics for healthcare projects. Our core competencies include Clinical Statistics, Translational Medicine & Biomarkers, Phase I & Pharmacokinetics/-Dynamics, Data Transparency & Disclosure Services, Health Technology Assessment and Bioinformatics. Our customers are international pharmaceutical companies, CROs, biotech companies and medical device manufacturers. Our steadily growing team supports our clients efficiently from study design to data analysis and finally the disclosing and posting of trial results.

To expand our team in Munich, we are looking for a part/full time

## Data Scientist with focus Biomarker research (f/m/d)

### Your responsibilities will include:

- Hands on data processing and analysis of high dimensional project data (e.g., biomarkers, gene expression)
- Develop predictive models, perform signature search, dimension reduction and cutoff determination using advanced statistical methods
- Statistical programming, development of reusable programs (e.g., functions, macros), data visualization, program validation, output generation
- Support non-clinical / clinical development in all phases, study planning (protocol, study design), sample size, reporting, analysis plan (e.g. SAP)
- Customer consulting and direct point of contact

### Your profile:

- Master's degree in statistics, mathematics, data science, or equivalent education or PhD
- At least three years of professional experience in data analysis and clinical research
- Strong expertise in basic and advanced statistical methods, e.g. multivariate statistics, mixed models
- Very good IT expertise, especially with statistical analysis tools (R required, SAS is a plus)
- Quick comprehension and analytical thinking
- Precise and accurate way of working
- Team player with high degree of initiative
- Good English skills, German is an advantage

### What we offer you:

We value communication, flat hierarchies, open corporate culture, and a harmonious work environment. We offer comprehensive individual development opportunities, continuous trainings, and flexible working hours. A modern and bright office with a subsidised canteen, as well as the opportunity to work 2 days per week from home are part of our everyday working life. Full remote work from anywhere in Germany for those who do not live in Munich can be discussed. You will join an interdisciplinary team allowing you to discuss with and learn from peers with many different backgrounds.

### Curious?
