80539 München

We are offering a

Student Assistant Position (8h/week)

to assist the team of the Chair of Statistics and its applications in business, economics and social sciences (Prof. Göran Kauermann). The job includes

- Latexing documents, preparing of lecture material
- Coding in R or Python (including small data analyses and preparation of plots, etc.)
- Support on special events (German Data Science Days, etc.)

Working hours are completely flexible. The contract can also be combined with other contracts.

We are looking forward to receiving applications from motivated students and we offer a very collaborative working environment, flexibility with respect to working hours, interesting and different working tasks and, in general, a friendly team.

Basic knowledge of German is helpful but not required.

Please send your applications (motivation letter, CV, transcript of records) to goeran.kauermann@lmu.de. Please send the material by July 25th, 2024. Any enquiries should also be sent to the given email.
