Research Associate for the Lab of Quantitative Psychology at the Human Sciences Department

(payment according to E13 TVöD)

wanted for a full-time position (39 hours/week, time-limited contract) at the Institute of Psychology, starting as soon as possible.

The Bundeswehr University Munich offers academic training for officers and officer candidates, leading to a bachelor’s degree and a consecutive master’s degree in study programs arranged into a trimester system. The study program at the Institute of Psychology follows the curriculum guidelines of the German Psychological Society, scheduling as much coursework for the research methods as is required for basic and applied psychology disciplines. A well-funded education in psychological methodology and diagnostics which includes epistemological and theoretical aspects plays a key role in the study program.

Your tasks:

• Collaboration with research projects of the lab, in particular development of methods related to structural equation models, or in explorative data analysis with machine learning, or software development for statistical software
• Participation in the development of a teaching program at Bachelor and Master level, in particular participation as teaching assistant
• Participation in supervision of Bachelor and Master theses
• Collaboration in publications
• Participation in task of self-administration of the lab

Qualification requirements:

• A very good Bachelor, Diplom or Master degree in Psychology, Computer Science, Math, or related fields
• Very good knowledge in formal methods of Psychology or related fields
• Experience with software systems used in Psychology, e.g., R
• German language skills are not required, but are a plus

We offer You:

• a pleasant working environment in a friendly and committed team
• highly modern IT equipment
• an active support of Your development as a researcher and of Your work on a doctoral thesis
• a long-term contract with perspectives of an extension
• excellent networking possibilities
• possibilities of participation in certified didactic continuing education programs

The position is also available as a part-time occupation. The Bundeswehr University Munich strives for increasing the ratio of women in science; applications of women are particularly encouraged. Handicapped applicants of same qualification level will be considered particularly.
If you have any questions please contact Prof. Dr. Timo von Oertzen (Email: timo.vonoertzen@unibw.de).

Are you interested?

Please send your application including the relevant documents (motivation letter, Curriculum Vitae, academic transcript, certificates, publications) until 14.10.2019 in a pdf format via E-Mail to:

Prof. Dr. Timo von Oertzen (Email: timo.vonoertzen@unibw.de), with a Cc to Dr. des. Olga Lantukhova (Email: olga.lantukhova@unibw.de).
