

Staburo GmbH is a data science company, specialized in statistical consulting, programming and bioinformatics for healthcare projects. Our core competencies include Clinical Statistics, Translational Medicine & Biomarkers, Phase I & Pharmacokinetics/-Dynamics, Data Transparency & Disclosure Services, Health Technology Assessment and Bioinformatics. Our customers are international pharmaceutical companies (7 of the top 20), CROs, biotech companies and medical device manufacturers. Our steadily growing team of 50 experts supports our clients efficiently from study design to data analysis and finally the disclosing and posting of trial results.

To expand our team in Munich (remote possible), we are looking for a

Working Student – Disclosure / Clinical Trial Transparency (f/m/d)

Your responsibilities will include:

- Supporting posting activities for drug, device, and biologic clinical trials
- Review of study protocols, amendments, and reports for disclosure readiness
- Review of documents and content during the quality check processes
- Managing timelines for timely submission of all registrations and postings to ensure compliance with international laws, regulations, and guidelines
- Participation in disclosure relevant meetings, if necessary

Your profile:

- Studies in a health or life science related discipline
- Experience in medical writing is a plus
- Knowledge of drug development and clinical science is a plus
- Knowledge or experience with Clinicaltrials.gov and/or EudraCT is a plus
- Work experience in CRO or pharma/biotech is a plus
- Fast comprehension, analytical thinking, teamwork and a high degree of initiative, willingness to learn
- Excellent organizational and time management skills, highly detail-oriented
- Very good English skills, German is an advantage

What we offer you:

We value communication, flat hierarchies, open corporate culture, and a harmonious work environment. We offer comprehensive individual development opportunities, continuous trainings, and flexible working hours. A modern and bright office, as well as the opportunity to work from home are part of our everyday working life. You will join an interdisciplinary team allowing you to discuss with and learn from peers with many different backgrounds.
