

# Current Research Projects in the Statistics and Econometrics Group

Daniel Wilhelm

(Department of Statistics, LMU)

16.11.2022, 16.00 (c.t.)

Department of Statistics, Ludwigstr. 33, Room 144  
and online via Zoom (Link)

(Meeting-ID: 913-2473-4411; Password: StatsCol22)

This talk first provides an overview of research projects in the Statistics and Econometrics Group and then discusses selected projects in more detail. Topics include identification of measurement error models, inference involving ranks, and inference for treatment effects.

## **Biography:**

Daniel Wilhelm recently joined the Department of Statistics as Professor of Statistics and Econometrics. He received his PhD from the University of Chicago and previously worked as Professor of Economics at University College London.
